

ENERGY PROVIDER AND COMMUNITY PARTNER

Chesapeake Utilities Corporation is a responsible and trusted energy provider, committed to making positive contributions to the economic prosperity and sustainability of its communities. With the financial and operational strength of the Company, a comprehensive effort continues across our organization where our talented and diverse employees strive to enhance our corporate responsibility related to environmental, social and corporate governance considerations. This approach is centered on the needs of our customers and communities. Working together, our employees understand these needs and strive to implement solutions that continue to provide energy options and efficient energy use; generate savings; and/or reduce carbon emissions.

At Chesapeake Utilities Corporation, we draw upon our legacy of expertise to operate in an ecologically-aware manner while increasing environmental benefits in our communities. Recently, Chesapeake Utilities Corporation announced its agreement with a leading global developer of anaerobic digestion facilities that creates renewable energy and healthy soil products from organic material. Chesapeake Utilities Corporation and its affiliates will collaborate with the third party on this project in addition to several other project sites where organic waste can be converted into a carbon-negative energy source. This joint initiative will bring renewable natural gas to Chesapeake Utilities Corporation’s service territories on the Delmarva Peninsula to help fuel homes and businesses, increasing environmental benefits and supporting a more sustainable future.

As part of our long-standing commitment to the communities where we serve and work, Chesapeake Utilities Corporation partners with national and local organizations in support of various community programs. Through our community outreach, we build lasting relationships with community members and officials to further the betterment of the environment, education, well-being, and economic and social enrichment of our communities.

Although we are not able to volunteer in person, as a Company during the COVID-19 pandemic, we continue to contribute to local and national organizations via event sponsorships and donations of funds and items. In April 2020, the Company donated \$200,000 to support response and relief organizations who are assisting communities affected by the COVID-19 pandemic.

Chesapeake Utilities Corporation also awarded a one-time grant from its SHARING program for our customers who were economically impacted by the pandemic. The SHARING program, an approved 501(c) organization, is funded by donations from customers and employees to assist the Company’s natural gas and propane gas customers residing on the Delmarva Peninsula who need financial assistance to pay their gas bills or to repair their gas appliances. We partner with Catholic Charities in Delaware and Shore UP! in Maryland, and recently funded our SHARING program in Florida to assist propane gas, natural gas and electric customers throughout the state.

Driven by energy.
Delivering energy.

Chesapeake Utilities Corporation, headquartered in Dover, Delaware, is a diversified energy delivery company. With more than \$1.8 billion in total assets, the Company is traded on the New York Stock Exchange under the symbol CPK.

Throughout its operating divisions and subsidiaries, our Company is engaged in the distribution of natural gas, propane gas and electricity; the transmission of natural gas; the generation of electricity and steam; mobile CNG solutions; and other businesses. Chesapeake Utilities Corporation ("Chesapeake Utilities") is an energy delivery company publicly traded on the New York Stock Exchange under the ticker symbol "CPK" (NYSE:CPK). Chesapeake Utilities is not, nor has it ever been, affiliated with Chesapeake Energy Corporation.

Our History

Since 1859, Chesapeake Utilities Corporation has been energizing our local communities - providing energy solutions for more than 160 years.

1859

Dover Gas Light Company, a gas company located on the corner of New and North Streets in Dover, DE, was started. Dover Gas Light would eventually become Chesapeake Utilities Corporation.

1947

Chesapeake Utilities Corporation was incorporated in Delaware.

1948

Two natural gas companies, Citizens Gas Company, Salisbury, MD, and Sussex Gas Company, Seaford, DE, were acquired.

1955

Eastern Shore Natural Gas Company (ESNG) was incorporated in Delaware. By 1966, ESNG extended a pipeline from Bridgeville, DE, to Cambridge and Easton, MD.

1959

ESNG extended a pipeline from Parkesburg, PA, to Salisbury, MD, and began delivering gas to its customers in the region. During this time, Chesapeake Utilities Corporation converted three operating facilities from propane to natural gas.

1980

Chesapeake Utilities Corporation acquired its first propane company, Mitchell's Gas Service, Laurel, DE.

1981

Clarence E. Sharp Company, Georgetown, DE, a propane distribution company, was acquired. Sharpgas, Inc., dba Sharp Energy, was formed to consolidate Chesapeake's propane distribution operations.

1985

Central Florida Gas Company, Winter Haven, FL, a natural gas distribution company, was acquired. Chesapeake Utilities Corporation's common stock began trading on the NASDAQ National Market System.

1986

Cambridge Gas Company, Cambridge, MD, a natural gas distribution company, was acquired.

1988

Plant City Natural Gas Company, Plant City, FL, a natural gas distribution company, and Kellam Energy Inc., Belle Haven, VA, a propane company, were both acquired.

1993

Chesapeake Utilities Corporation began trading on the NYSE as CPK.

1998

Central Florida Gas Company's service territory expanded to include Gadsden and Citrus Counties.

2009

The Company completed the acquisition of Florida Public Utilities Company, which distributes natural gas, propane gas and electricity throughout Florida.

2013

Chesapeake Utilities Corporation began providing its Sharp Energy AutoGas, a viable alternative fuel for automobiles that reduces emissions and lowers costs.

The Company purchased the operating assets of Eastern Shore Gas, now operating as Sandpiper Energy, Inc., to provide service to customers in Worcester County, MD.

2015

The Company completed the merger of Gatherco, Inc. into Aspire Energy of Ohio, LLC, to provide natural gas midstream services, processing and transportation services.

2016

Chesapeake Utilities Corporation celebrated the commencement of operations for Eight Flags Energy, LLC, the Company's first combined heat and power plant, located on Amelia Island in Fernandina Beach, FL. The plant generates approximately 21 megawatts of baseload power, producing enough electricity to meet 50% of the Island's demand.

Chesapeake Utilities Corporation rings The Closing Bell® at the NYSE.

2017

Chesapeake Utilities Corporation expanded its natural gas service in Escambia County, FL, distributing natural gas to the city of Pensacola and surrounding areas.

The Company placed into service an AutoGas propane fueling station for fleet vehicles located near the Baltimore/Washington International (BWI) Airport. Airport shuttles, school bus companies, and commercial fleets use this new fueling station to power their fleets with propane, a preferred alternative fuel option that reduces emissions and yields savings.

2018

The Company purchased the operating assets of Chipola Propane Gas Company in Marianna, FL, expanding its propane presence in Northwest Florida.

The Company acquired Marlin Gas Services, a virtual pipeline providing energy solutions throughout the nation. Marlin maintains one of the largest fleets of steel trailers dedicated to compressed natural gas transport; and leverages its patented regulator system to serve liquefied natural gas and renewable natural gas transportation needs.

The propane operating assets of Ohl Propane were purchased, providing propane service to more than 2,500 residential and commercial customers in Carbon, Monroe, Northampton, Lehigh, and Schuylkill Counties in Pennsylvania.

2019

Chesapeake Utilities Corporation completed and placed in-service the Eastern Shore Natural Gas 2017 Expansion, the single largest transmission system expansion in the Company's history. The expansion increased delivery capacity by 26% and helps to meet the growing energy requirements of southern Delaware and the Eastern Shore of Maryland.

Chesapeake Utilities Corporation celebrated 25 years of being listed on the NYSE by ringing The Opening Bell® at the NYSE.

The propane operating assets of Boulden Propane in Newark, DE, were acquired, increasing service to an additional 5,200 residential and commercial customers.

The Company opened its new compressed natural gas (CNG) fueling station in Dover, DE, providing an alternative fuel to reduce emissions in transportation applications.

The Company entered into an agreement to acquire Elkton Gas, providing natural gas to approximately 7,000 residential and commercial customers in Cecil County, MD.

In 2019, Chesapeake Utilities Corporation was recognized as the longest continuously running company in Dover, DE. This is a testament to its employees, customers, communities and partners who contribute to the Company's commitment to a culture of safety, accountability and growth.

SAFETY IS THE CORNERSTONE OF OUR RESPONSIBILITY

Our successful track record of performance is driven by the entrepreneurial spirit of our employees. Each employee at Chesapeake Utilities Corporation is a valued member of our team, bringing diverse perspectives and skills to help achieve its goals. Our employees are the foundation of our strong culture that promotes integrity, accountability and reliability with the safety of those we serve as our highest priority.

Our customers and the communities where we live and work are extensions of the Chesapeake Utilities Corporation family and we are dedicated to promoting safer environments in our workplace and in our communities. Our genuine commitment to safety and compliance in our operations and everyday processes has consistently led to industry recognition.
