

UNDERSTANDING YOUR BILL

Monthly bills will reflect usage based on the read taken from your meter, which will vary from month to month depending on how much natural gas you use and the current cost of natural gas. Circumstances affecting your monthly bill include changes in the weather, the number and type of appliances you use, the amount of time you spend at home, and more.

The following is a brief explanation of the bill you will receive from Elkton Gas, and the charges approved by the Maryland Public Service Commission.

BILL SAMPLE

2	Account Number 10-100008-3750011-1		Account Activity	
	Meter Number 10-3750009	Account Name ELKTON GAS TESTER 9	BALANCE LAST STMT 0.00

1. Account Holder's name

2. **Account Number** - This is your Chesapeake Elkton Gas billing account number.

3. **Address** - This is the address where service is provided.

4. **Meter Readings** - This section summarizes your reading information. Your current read is listed first, followed by your previous read. The difference is the total amount of gas used.

5. **Rate** - This is the rate which you are billed.

6. **Calculation of Gas Usage** - $Total\ of\ CCF \times Meter\ Multiplier \times Therm\ Conversion\ Factor = Therms\ Used$

- **CCF** - Amount of gas used from the meter.
- **Meter Multiplier (Pressure Factor)** - Used to convert reading to determine the meter's total therm usage for the billing period.
- **Therm Conversion** - Used to convert the volume of gas used to its heat equivalent, and thus to calculate the actual energy used
- **Therms** - a unit of measure used to determine how much gas is used and to bill the customer.

7. Fuel Computation -

- **Distribution Charge** - This section summarizes the changes relating to your gas consumption, including the rate used to compute your gas charges.
- **Purchase Gas Adj** - The monthly changes of the company's actual cost to purchase gas.

8. **Important Message** - This section will contain important messages and ways to manage your bill.

9. **Comparative Usage** - This section will show your current usage vs last month's usage

10. **Account Activity** - This section summarizes your current billing and payment information. The amount due from your previous bill is listed first, followed by any activity since your last billing statement, including any payments, returned check charges or late-payment fees. Together, these create your Balance. Added to the Balance are your Current Gas Charges and Taxes, resulting in the Total Amount Due.

11. **Due Date** - This is the date your payment is due.

12. **Total Amount Due on this account**
